

Nazar Stefiniv

Web Developer

Lublin, Poland | nazar.stefiniv0@gmail.com | ssalvation0.github.io | github.com/ssalvation0 | Telegram: @sss salvation

SUMMARY

Computer Science student at WSEI University and web developer based in Lublin, Poland. I build full-stack web apps end to end — from the interface to the data layer, REST API integrations and deployment. Comfortable with React, TypeScript, Node.js and Supabase, and quick to learn whatever a project needs. Looking for an internship or a junior frontend / full-stack developer role.

SKILLS

Frontend: React, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Framer Motion, responsive design

State & Data: Zustand, TanStack Query, React Router, REST APIs

Backend: Node.js, Express, Supabase (PostgreSQL, Auth, Storage)

Tools: Git, GitHub, Vite, Vercel, GitHub Pages, Leaflet

Soft skills: Teamwork, communication, problem-solving, self-learning

PROJECTS

TransmogVault — Full-stack WoW transmog catalog

transmogvault.vercel.app

React, TanStack Query, React Router, Node.js, Express, Supabase

- Built a Node.js/Express backend that pulls 3,800+ transmog sets from the Wowhead tooltip API and enriches them via the Blizzard Game Data API.
- Implemented filtering by class, armor type, source, expansion and quality, plus full-text search.
- Added user accounts with Supabase: favorites, collections, ratings, comments and recently viewed sets.

Termino — Online service booking platform

ssalvation0.github.io/termino-app

React 19, TypeScript, Vite, Tailwind CSS, Supabase, Zustand, React Router, Leaflet

- Built map-based provider search with Leaflet, service pages and a complete booking flow with smart time-slot generation.
- Developed a provider dashboard for firm onboarding, settings, services and booking management.
- Implemented authentication, user profiles, reviews and ratings with Supabase, and app state with Zustand.

Band Landing Page — Responsive one-page concert site

ssalvation0.github.io/testtask

HTML5, CSS3 (Flexbox, Grid), JavaScript

- Hand-coded a fully responsive layout with a mobile menu, smooth in-page navigation and an interactive concert schedule — no frameworks.

EDUCATION

Bachelor of Engineering (B.Eng.) in Computer Science

Oct 2024 – Feb 2028 (expected)

WSEI University, Lublin, Poland — first-cycle engineering studies, 3.5 years

Natural Sciences & Mathematics

2021 – 2024

Ivan Puluĵ Lyceum, Ivano-Frankivsk, Ukraine

IT Courses

2019 – 2022

IT-Step Academy of Computer Technologies

LANGUAGES

Ukrainian — Native | English — Professional working proficiency | Polish — Intermediate
