PROFILE

Computer Science student and web developer based in Lublin, Poland. I build full-stack web apps end to end — from the interface to the data layer, API integrations and deployment. Comfortable with React, TypeScript and Supabase, and quick to learn whatever a project needs. Looking for an internship or junior developer role.

PROJECTS

TransmogVault, Termino & more — live with code at ssalvation0.github.io

SKILLS

Frontend	React, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Framer Motion
State & Data	Zustand, TanStack Query, React Router, REST APIs
Backend	Node.js, Express, Supabase (Postgres, Auth, Storage)
